☐ **TV Pelvic Ultrasound** ☐ **R/O Pelvic Congestion**

☐ **Other**

PREPARATION FOR MAMMOGRAPHIC AND DEXA SCANS:

1. Your skin should be clean. Please do not use any deodorant, perfume, powder, ointment or other preparations in your underarm area or on your breasts. Residue from such preparations can create misleading results.
2. For your convenience, wear a blouse with a skirt or slacks, rather than a dress, since it is necessary to undress to the waist for the examination.
3. If you have had prior mammograms at a different facility, please bring a CD with your images.
